

Hills of Gallahue Patch

To earn the Hills of Gallahue patch, you must hike the entirety of the trail and take the actions below.

1. Make a plan - This trail is approximately 6 miles long and may take several hours. You will want to work with your troop to write down a plan and print off the map. Will you need snacks? What time of day will you go? Did you check the weather? What other questions can you answer before you head off on your trek?
2. Visit the Hollygobs & Build a Fairy House – The fairies of the Hollygobs look after all of the campers that stay at Camp Gallahue – but be careful, if you knock over one of their houses, they'll steal your left shoe in the middle of the night! Use the natural materials around you to build a new Hollygob home.
3. Sing a song from Harley's Hill to Art Colony – One of the best camp traditions is singing a group song while making your way from one place to another. Pick a song and sing it while you're hiking between Harley's Hill and Art Colony (or vice versa depending on which direction you're hiking).
4. Identify Four Animals – There are many forest animals who call Gallahue home. This is why it's important to respect the environment and leave camp cleaner than you found it. As you're hiking, take note of at least 4 animals that are living in the forest. When you're done with your hike – see what you can learn about those animals!

Visiting the Hollygobs? Here's two helpful hints to find your way.

- If you're coming from behind the Reservation Unit, the trail will fork. Make sure you stay to the left, and follow the trail down to where the forest begins to have more pine trees.
- If you're coming from the road, you'll cross the bridge and you should see a trail on your left. This trailhead is sometimes overgrown, but you should see where the trail opens up into the woods.
